Norton Security covers PCs, Macs, Androids, iPads and iPhones. Some features are not available on iPad and iPhone.

Auto-scan of apps on Google Play supported on Android 4.0 or later except for Samsung devices. Samsung devices running Android 4.2 or later are supported. For earlier versions of Android, the Google Play "Share" function must be used to scan apps on Google Play.

**Automatic Renewal Settings.** Please note, if you choose to renew or upgrade your existing Norton protection and use a different email address than the one that pre-populates at time of checkout, your existing Norton subscription will continue to automatically renew and not be cancelled. Please call Norton Support for assistance, or unsubscribe in your Norton account by turning OFF the automatic renewal setting on your existing Norton subscription. You can confirm your subscription settings by logging into your Norton account here (<http://manage.norton.com>).

\*Details about your Norton subscription:

- Your subscription begins when your purchase is completed for online payments, (or otherwise, when your payment is received). You must download and install on each device to be protected by Norton.
- By subscribing, you are purchasing a recurring subscription which will automatically renew annually after the first term.
- The price quoted today is valid for the first term of your subscription (i.e., 1 year or 2 years, depending on your selection). After that, your subscription renews each year at the then-current subscription renewal price. The price is subject to change, but we will always notify you in advance.
- You can unsubscribe any time at [manage.norton.com](http://manage.norton.com) or by contacting Norton Support. For more details, please visit the Norton Return Policy ([http://www.norton.com/store\\_return\\_policy](http://www.norton.com/store_return_policy)).
- Your subscription includes coverage on the specified number of devices, protection updates and features that may be added, modified or removed, subject to the acceptance of the Norton License Agreement (<https://www.symantec.com/about/legal/license-agreements.jsp>).

**\*\*Virus Protection Promise:** To be eligible for the Virus Protection Promise, you must have a qualifying Norton subscription and unless you have Norton Small Business, you must also have purchased, renewed or upgraded that Norton subscription directly from Symantec, or subscribe to the Norton Automatic Renewal Service. If a Norton expert is unable to remove the virus from your device, then you may receive a full refund on the actual price paid for your current Norton subscription term, or the term of your current Norton subscription bundle. Or, if your bundled purchase contains a Norton subscription with a non-Norton subscription/product, your refund will be limited to the Manufacturer's Suggested Retail Price of your Norton subscription for the current term, not to exceed the total price paid for that bundle. The refund will be net of any discounts or refunds received and less any shipping, handling and applicable taxes, except in certain states and countries where shipping, handling and taxes are refundable. The refund does not apply to any damages incurred as a result of viruses. See [Norton.com/guarantee \(http://us.norton.com/nortonlive/information.jsp?type=guarantee\)](http://us.norton.com/nortonlive/information.jsp?type=guarantee) for details including qualifying Norton subscriptions.
